I'm Jeremy 👋 a curious, collaborative Senior Product Designer with 8 years of experience creating and testing efficient user experiences that produce meaningful results.

Recent experience

Honeycomb.io, Remote
Senior Product Designer *Jan 2021-Feb 2026*

+ Generated Early Access sign-ups from target enterprise teams by designing greenfield Anomaly Detection AI feature
+ Informed triad's decisions and derisked initiatives by conducting user research and usability testing
+ Increased efficiency for Design and Engineering Teams by contributing components and patterns to its design system, Lattice

NewsCred (Optimizely), Hybrid NYC
Product Designer *Oct 2018-2021*
Senior Art Director *Feb 2014-Oct 2018*

+ Improved user experience for heavily-trafficked Campaigns feature by directly addressing recurring customer feedback
+ Positioned company for acquisition by supporting Product's new Integrated Marketing strategy with a redesigned homepage experience
+ Aligned team's vision by sharing user journey maps, user flows, prototypes, low- and high-fidelity mocks, and annotated specifications

Suka Creative, NYC
Senior Designer *Jul 2012-Oct 2013*

+ Conceived and designed branding, web, and print solutions for prestigious clients in the higher education, finance, and non-profit industries
+ Ensured consistent quality and timely execution of deliverables by collaborating with and managing production vendors like web developers and printers

Education

BA, Graphic/Information Design
Central Connecticut State University
